CURLS

Do you have naturally curly hair, or know someone who does? This week only, **CURLS**, an organic curly haircare line for women, children, and babies, is offering iVillage readers a 30 percent off discount on all products. Simply type in coupon code **icurls** at checkout!

Wavy or curly hair can sometimes have a mind of its own, and this line was invented to combat that out-of-control-ness and turn it into something manageable, conditioned and healthy (and gorgeous!). From shampoo to hair gel to shine spray and more, all CURLS products use certified organic ingredients and exotic oils -- which are unbeatable for controlling frizz -- and are delicious-smelling. There's a must-have **Straight for a Day Kit** (\$17.50 with the code) and even an **Active Woman on the Go Kit** (\$19.60 with the code). I love the luxurious feel of **Cashmere Curls** (just \$14 with the code), a light-but-powerful serum that can restore keratin and improve the strength, shine, and texture of color-treated or overstyled locks. And hey, when something's called "cashmere," you know it's going to treat you right.

Coupon code **icurls** is good for 30 percent off the entire site and is valid Wednesday, February 3, through Tuesday, February 8, at 11:59 p.m.

Do you prefer to use organic beauty and hair products over chemical ones? Chime in!
